

gnuplotio::FileHandleWrapper

boost::iostreams::stream  
< boost::iostreams::file  
\_descriptor\_sink >

gnuplotio::Gnuplot

```
graph LR; Gnuplot[gnuplotio::Gnuplot] -- red arrow --> FileHandleWrapper[gnuplotio::FileHandleWrapper]; Gnuplot -- blue arrow --> BoostStream[boost::iostreams::stream < boost::iostreams::file_descriptor_sink >];
```

The diagram illustrates the dependencies of the `gnuplotio::Gnuplot` class. It is represented by a grey box on the right. Two arrows originate from it: a red arrow points to the `gnuplotio::FileHandleWrapper` class (white box, top left), and a blue arrow points to the `boost::iostreams::stream < boost::iostreams::file_descriptor_sink >` class (white box, bottom left).
